MORGAN & FRENCH

WITH LOVE

HANDCRAFTED IN ENGLAND

YOU WILL NEED:

A soft pencil, a 3B is ideal • A piece of white unlined paper • A roll of clear Sellotape, or similar

STEP 1

Use the pencil to shade an area on a piece of white plain paper, go over the area several times.

STEP 2

Rub your finger all over the shaded area, making sure to cover the pad right to the crease of your finger.

STEP 3

Make sure you've covered all the interesting whirly parts of your fingerprint right down to the crease, like this.

STEP 4

Tear off a piece of the tape and place it sticky side up on a hard surface. Carefully press your finger onto sticky side of the tape

STEP 5

Slowly peel your finger from the tape to reveal your pencil fingerprint and then carefully stick this to the paper, write your name next to it.

STEP 6

Repeat the process until you're happy with the result. Make sure you clearly label each print with the persons' name.

If you have your own high-res scanner, you can scan the fingerprints (using the very best quality setting) and email the file to studio@morganandfrench.com – but please retain the originals until we confirm receipt.

If you don't have a scanner, or are unable to scan and email in high enough resolution, please carefully fold the paper (taking care not to crease through any of the prints), pop it in an envelope with your order number on the outside of the envelope, and post it to:

Morgan & French, The Old Fire Station, Church Street, Biggleswade, Bedfordshire, SG18 0JS
